Leeds
LS12 4PT

Dear Alexis,

I wanted to send a brief letter expressing my appreciation for the recent work your organisation carried out for Housing Leeds.

I was particularly impressed with the exceptional quality of the product and the high quality and standard of workmanship involved with the creation and installation of the doors.

It really is refreshing to deal with a company as professional and customer focussed as yours. The doors are impressive in appearance and have received a number of compliments from residents and staff in respect to useability, security and look.

I am fully aware of the current business climate in the UK and would like to offer my support to you in terms of enabling other similar organisations to benefit from your high quality products.

All in all, I truly hope our business relationship can grow and look forward to working with your company in the very near future.

Yours sincerely
