To whom it may concern

West Lancashire Borough Council have Specified Bamford Doors for a recent 100+ block door replacement program. This involved the replacement of approximately 180 security doors.

The program has been brought in on time and within budget. The quality of both the doors and the installation has exceeded our expectations. The project management aspect, which was part of the Bamford contract, was very proactive and any small issues were dealt with quickly and efficiently.

I would recommend Bamford doors to any organisation who require a quality product expertly installed.

Please do not hesitate to contact me should you require any further information

Yours faithfully
